

XTM Connect – Episerver (Optimizely) Installation Guide

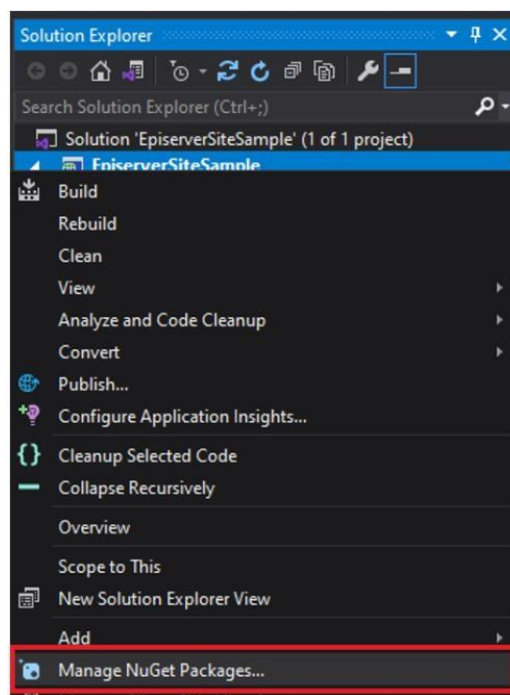

Documentation for XTM Connect – Episerver
Minimum supported XTM Cloud version: v12.8
Minimum supported Episerver version: 11.15.0
Minimum supported .NET Framework version: 4.6.1

Adding XTM.Connector.Episerver NuGet package to Episerver

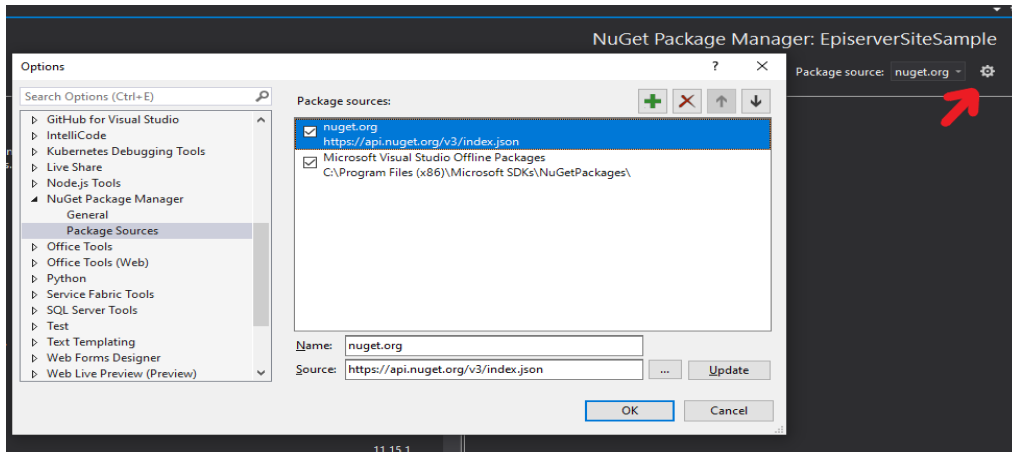

1. Open your Episerver solution in Visual Studio

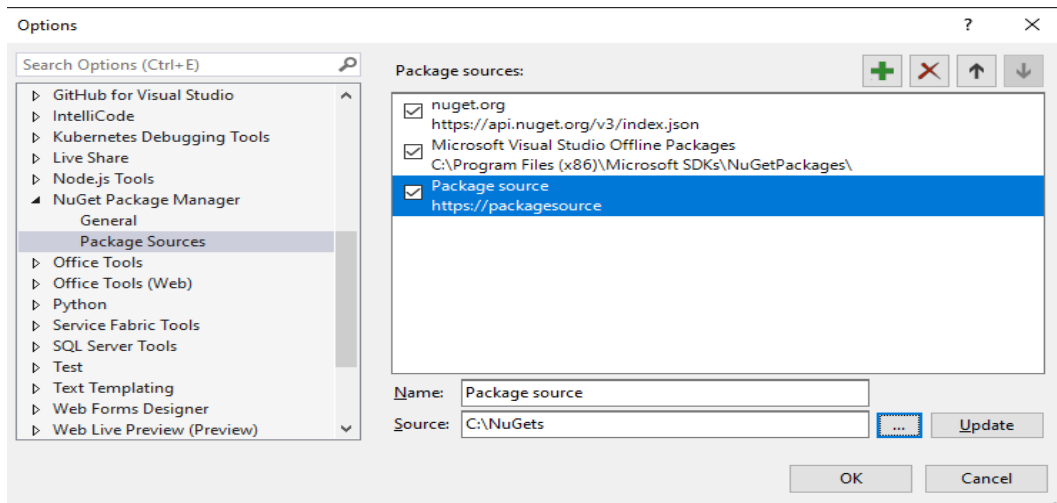

2. Open NuGet package manager

- In NuGet Package Manager, select the  icon to open the Options window, then navigate to NuGet Package Manager > Package Sources

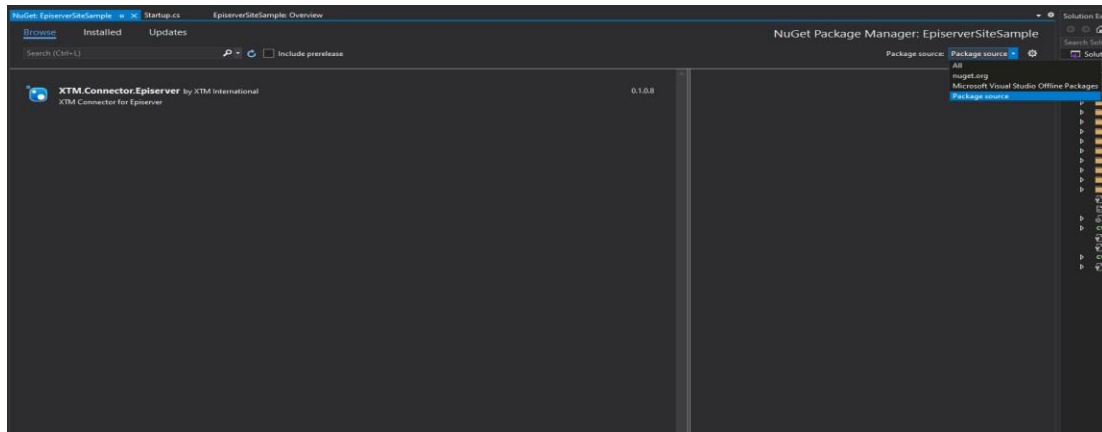

- Select the  icon to add a Package source
- Select the newly added package source and add the path to the folder with the XTM NuGetPackage

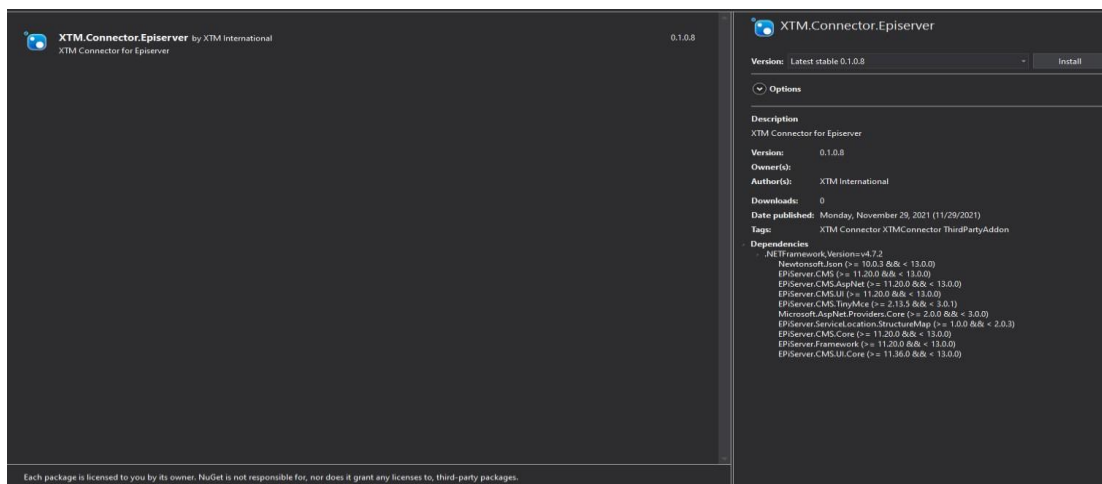

- Select OK

7. Select the recently added source, then access the Browse tab

8. Install the XTM.Connector.Episerver NuGet package to the Episerver project
